Case Type: Assault 4th

On 5/24/2016 at 1404 hrs I responded to Cascade Behavioral Health (CBH) at 12844 Military Rd S in Tukwila, WA for a report of an assault upon a patient by a Certified Nurse's Assistant.

When I arrived I met the RN Director [REDACTED]. [REDACTED] stated that on 5/22/2016 they had an incident where a patient who has Alzheimer walked up behind a Certified Nurse's Assistant [REDACTED] and struck him on the right side of his head and ear. [REDACTED] had conducted interviews with all employees who were involved in the incident and had turned in her findings, she also stated that [REDACTED] was going to be terminated on 5/25/2016.

A code "Gray" (Aggressive PT Code) was called after the patient [REDACTED] DOB: [REDACTED] hit [REDACTED] on the right side of his head. [REDACTED] turned around and grabbed the patient's left arm and twisted it behind the victim's back in an attempt to secure him. This move from [REDACTED] was witnessed by a couple of other co-workers who came to the area to assist with the aggressive patient (see additional paperwork submitted by CBH).

This move was also against current protocol and training that all employees go through from Crisis Prevention Institute (CPI) "Interim Control Position". CPI is a company that for more than 35 years has been training employees at schools, hospitals and other service organizations in order to create a safer, more respectful work environment for all involved.

[REDACTED] had gone through the CPI training on 2/05/2015 and was scheduled to go through a refresher training on 3/23/2016, however [REDACTED] was a no show for the refresher training, but he still had the knowledge on the training and has used it since the original course.

Employee [REDACTED] stated that she came out of the medicine room when the code gray was called, she saw nurse [REDACTED] holding the left arm of [REDACTED] as they were walking him to the sunroom and [REDACTED] holding [REDACTED]'s right arm. [REDACTED] stated that she saw [REDACTED] reach up and grab [REDACTED]'s right ear and pull downward on the ear itself.

Employee [REDACTED] RN was the first to make contact with [REDACTED] and [REDACTED] after the code gray was called. [REDACTED] told [REDACTED] to reposition [REDACTED]'s left arm, but [REDACTED] did not do what he was advised to do. [REDACTED] stated that [REDACTED] then reached up and squeezed [REDACTED]'s cheeks together.

Employee [REDACTED] RN stated that she arrived and observed [REDACTED] and [REDACTED] standing next to [REDACTED]. [REDACTED] stated that a small amount of blood was observed on the inside of [REDACTED]'s mouth after it was squeezed in an aggressive manor by [REDACTED]. [REDACTED] stated that she then made contact with the Nurse Manager [REDACTED] and apprised her of the situation. [REDACTED] did request to go home for the rest of his shift in pain from being hit from behind.

TUKWILA POLICE DEPARTMENT

Officer NarrativeCase Type: **Assault 4th**

Case Number:	16-3946
Date:	5/29/2016
Officer:	STEPHENSON
